Transit New Zealand

Attn: [Redacted]

Dear Madam,

OUTLINE PLAN APPLICATION UNDER s176A OF THE RMA (RM080074) – TO UNDERTAKE REMEDIAL EARTHWORKS ON THE CLIFF AREA ABOVE SH2, ON ROAD RESERVE (ADJOINING THE SITE AT 160 WESTERN HUTT ROAD) REFERRED TO AS THE HOROKIWI SITE, LOWER HUTT.

I refer to your application under section 176A of the Resource Management Act 1991, to undertake remedial earthworks to reduce further slipping on the Horokiwi site on SH2 adjoining the site at 160 Western Hutt Road. The subject site is designated TNZ 2 for state highway motorway purposes within the City of Lower Hutt District Plan. There are conditions for the designation that apply to the Dowse Interchange, these conditions will not apply to this specific location. The proposal to undertake remedial earthworks on the steep cliff area above SH2 is considered to be consistent with the SH2 designation as it will improve the safety and efficiency of SH2.

Pursuant to Section 176A of the Resource Management Act 1991, Hutt City Council requests no changes to the submitted outline plan.

Yours sincerely

RESOURCE CONSENT PLANNER
